Update README.md file and add it to the staging area and commit it using a commit message.

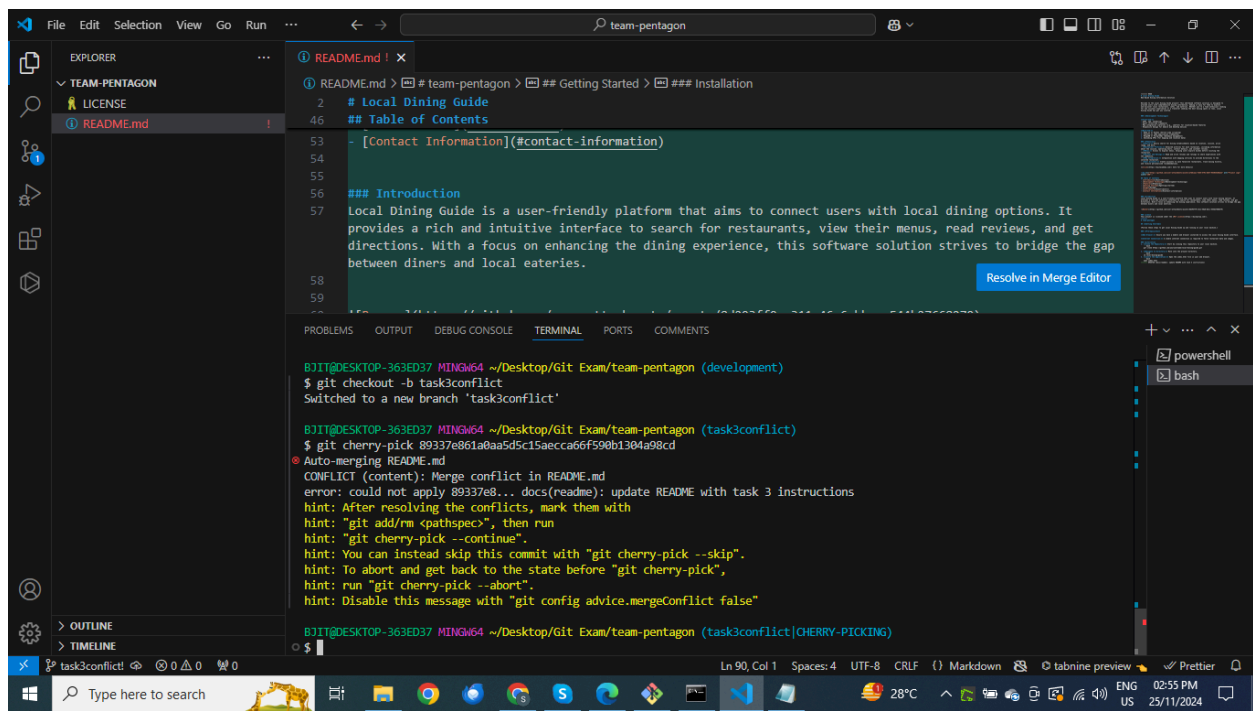

Before pushing again pull from the development branch

The screenshot shows the Visual Studio Code interface with the Explorer pane on the left showing the project structure: TEAM-PENTAGON, LICENSE, and README.md. The README.md file is open in the editor, showing a table of contents and contact information. The TERMINAL pane at the bottom displays the output of a series of git commands. The commands executed are: `$ git pull origin development`, `$ git pull origin development`, and `$ git pull origin development`. The output shows that the pull was successful, with objects enumerated and compressed, and the branch updated to the latest state. The status bar at the bottom indicates the current branch is 'development' and there are no uncommitted changes.

```
$ git pull origin development
$ git pull origin development
remote: Enumerating objects: 13, done.

Create another branch for conflict check

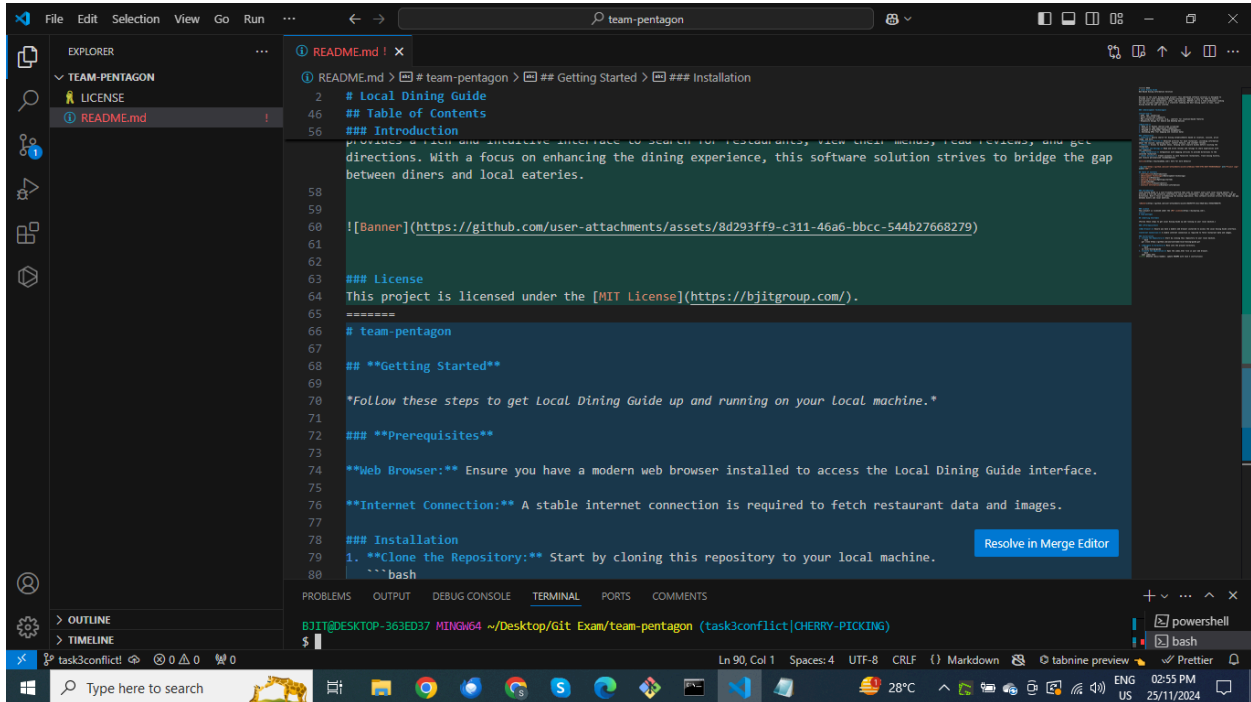

The screenshot shows the Visual Studio Code interface with the Explorer pane on the left showing the project structure: TEAM-PENTAGON, LICENSE, and README.md. The README.md file is open in the editor, showing a table of contents and contact information. The TERMINAL pane at the bottom displays the output of a series of git commands. The commands executed are: `$ git checkout -b task3conflict`, `$ git cherry-pick 89337e81a0aa5d5c15aecca66f590b1304a98cd`, and `$ git cherry-pick 89337e81a0aa5d5c15aecca66f590b1304a98cd`. The output shows that the checkout was successful, and the cherry-pick operation resulted in a conflict in the README.md file. The conflict message indicates that the merge could not be applied because the docs(readme) were updated with task 3 instructions. The status bar at the bottom indicates the current branch is 'task3conflict' and there are uncommitted changes.

```
B3IT@DESKTOP-363ED37 MINGW64 ~/Desktop/Git Exam/team-pentagon (development)
$ git checkout -b task3conflict
Switched to a new branch 'task3conflict'

B3IT@DESKTOP-363ED37 MINGW64 ~/Desktop/Git Exam/team-pentagon (task3conflict)
$ git cherry-pick 89337e81a0aa5d5c15aecca66f590b1304a98cd
Auto-merging README.md
CONFLICT (content): Merge conflict in README.md
error: could not apply 89337e8... docs(readme): update README with task 3 instructions
hint: After resolving the conflicts, mark them with
hint: "git add/rm <paths>", then run
hint: "git cherry-pick --continue".
hint: You can instead skip this commit with "git cherry-pick --skip".
hint: To abort and get back to the state before "git cherry-pick",
hint: run "git cherry-pick --abort".
hint: Disable this message with "git config advice.mergeConflict false"

1 README.md > # team-pentagon > ## Getting Started > ### Installation
2 # Local Dining Guide
3 ## Table of Contents
46 ### Introduction
56 Provide a clean and intuitive interface to power for restaurants, take their orders, feed reviews, and get
57 directions. With a focus on enhancing the dining experience, this software solution strives to bridge the gap
58 between diners and local eateries.
59

65 # team-pentagon
66
67 ## **Getting Started**
68
69 *Follow these steps to get Local Dining Guide up and running on your local machine.*
70
71 ### **Prerequisites**
72
73 **Web Browser:** Ensure you have a modern web browser installed to access the local Dining Guide interface.
74
75 **Internet Connection:** A stable internet connection is required to fetch restaurant data and images.
76
77 ### Installation
78 1. **Clone the Repository:** Start by cloning this repository to your local machine.
79    ***bash
80
```

Add a modified file into the staging area and commit. Also push this branch to the remote repo.

```
BJIT@DESKTOP-363ED37 MINGW64 ~/Desktop/Git Exam/team-pentagon (task3conflict|CHERRY-PICKING)
$ git add .

BJIT@DESKTOP-363ED37 MINGW64 ~/Desktop/Git Exam/team-pentagon (task3conflict|CHERRY-PICKING)
$ git commit -m "docs(readme): Resolved in locally" -m "Refs: 30188"
[task3conflict 66f5c98] docs(readme): Resolved in locally
Date: Mon Nov 25 14:27:17 2024 +0600
1 file changed, 37 insertions(+), 14 deletions(-)

BJIT@DESKTOP-363ED37 MINGW64 ~/Desktop/Git Exam/team-pentagon (task3conflict)
$ git push origin task3conflict
Enumerating objects: 5, done.
Counting objects: 100% (5/5), done.
Delta compression using up to 8 threads
Compressing objects: 100% (3/3), done.
Writing objects: 100% (3/3), 769 bytes | 769.00 KiB/s, done.
Total 3 (delta 1), reused 0 (delta 0), pack-reused 0 (from 0)
remote: Resolving deltas: 100% (1/1), completed with 1 local object.

Wait for a review.

The image displays two screenshots of a GitHub pull request page for the repository `github.com/yeasir-ar/team-pentagon/pull/3`. The pull request is titled "SohanurRahman-... wants to merge 1 commit into development from task3conflict".

**Top Screenshot:** The pull request is in a state where a review is required. The "Review required" message states: "At least 1 approving review is required by reviewers with write access. [Learn more about pull request reviews.](#)". The "Merging is blocked" message states: "Merging can be performed automatically with 1 approving review." The "Reviewers" section shows "No reviews—at least 1 approving review is required. Still in progress? [Convert to draft](#)". The "Assignees" section shows "No one—[assign yourself](#)". The "Labels" section shows "None yet". The "Projects" section shows "None yet". The "Milestone" section shows "No milestone". The "Development" section shows "Successfully merging this pull request may close these issues."

**Bottom Screenshot:** The pull request is updated after a local conflict resolution. The title is "Task3conflict : Conflict resolved locally. #3". The "Review required" message is still present. The "Merging is blocked" message is still present. The "Reviewers" section now shows "yeasir-ar" as a reviewer. The "Assignees" section shows "No one—[assign yourself](#)". The "Labels" section shows "None yet". The "Projects" section shows "None yet". The "Milestone" section shows "No milestone". The "Development" section shows "Successfully merging this pull request may close these issues."

## Review another ones file

The screenshot displays a GitHub pull request review interface. The top section shows the pull request details: "humayun-bjt wants to merge 1 commit into development from checktask4conflict". Below this, the "Files changed" section shows a diff for the file "README.md". The diff includes changes to the "Usage" section, adding instructions for searching for restaurants, exploring restaurant profiles, reading and writing reviews, saving favorites, and getting directions. It also includes a "Thank you" message to contributors and a table of contributor information.

The bottom section shows the review summary, indicating that the changes are approved and the branch has no conflicts with the base branch. A comment from "SohanurRahman-Sohan" is visible, stating "Everything is fine." The interface also includes a "Merge pull request" button and a "Try the new merge experience" link.
